# World Championship 2010

## Sailing Area

With an expanse of 536 square kilometres, Lake Constance is the largest lake in Germany and after Lake Geneva the second largest lake in Middle Europe. Traditionally, it is a favourite water sports area. Not only because its location in front of the fantastic alpine chain, but also because of its very special winds. On Lake Constance, with the German bordering countries Baden-Württemberg and Bavaria, the Austrian Vorarlberg and the Swiss cantons St. Gallen and Thurgau, 28 400 sailing boats are registered. This shows its popularity. After the X-99-yachtsmen and -women met in Bregenz for the World Championship in 2004, they are expected in ULTRAMARIN in Kressbronn-Göhring

for the World Championship in 2010. ULTRAMARIN is organizing the Championship. The Yacht-Club Langenargen is responsible for the event, cooperating with the X-99 Class Association with members from Germany, Austria, Switzerland and Liechtenstein.

## Yachts

The X-99 is a One-Design-Class Yacht with a length of ten metres and a weight of 2980 kilograms. For the first time it was launched by X-Yachts in Denmark in 1984. Until today, 600 yachts have been sold, 80 to Lake Constance.

The Performance Cruiser is a combination between regatta orientated racer and a comfortable family yacht. During regattas, the X-99 is sailed by a crew of six. Its construction is, compared with later sports yachts of the same size, very powerful.

The One-Design-Class of the X-99 is authorized to carry out World Championships.

One-Design-Class means, that all yachts, participating in the regatta, have rating certificates, indicating the same size of sail and yacht as well as the same equipment. Its performance level is high, so we are expecting hard fights.
